

# Follow-up sequences: what fires when a lead comes in

Updated 10/8/26. Every sequence pauses the moment the person replies, so nothing keeps sending to someone who is already talking to Cindy.

**About the texts.** Follow Up Boss on this plan cannot send a text by itself. Each "Text" step below creates a task on Cindy's phone with the message already written; she taps it, reviews, and sends it from her own cell (805-478-1412). Automatic texting is a paid Follow Up Boss add-on (their calling and texting number), which we are not using.

Not automated, on purpose: Fello's import of the existing database (those people only get a sequence if they submit a Fello form), open houses and referrals (added by hand), and people who register on BoldTrail (BoldTrail's own emails). If a new source ever appears in Follow Up Boss, such as a new portal or ad platform, it shows up on the Lead Flow page with "No action plan" and needs one assigned.
